We recognize the sensitive nature of personal health information. We are committed to protecting your privacy as well as your health. Therefore, the following Notice of Privacy Practices describes how medical information about you may be used and is disclosed and how you can get access to this information. Please review it carefully.

#### **USES AND DISCLOSURE OF HEALTH INFORMATION**

Pursuant to law, we may use health information about you for treatment (such as sending you medical record information to a specialist physician as part of a referral), to obtain payment for treatment (such as sending billing information to a health insurance plan), for administrative purposes, and to evaluate the quality of care that you receive (such as comparing patient data to improve treatment methods).

Although the law does not require that we obtain a signed consent from you for treatment, payment, or healthcare operation purposes, we encourage you to sign a consent so that you are aware of our concern and

practices regarding protection of your personal health information.

Our policies and procedures are designed to protect your privacy. We may need to use or disclose identifiable health information about you without your authorization for several other reasons, such as required law. Subject to certain requirements, we may disclose health information for public health purposes, abuse or neglect reporting, auditing purposes, research studies, funeral arrangements, organ donation, workers' compensation purposes, and/or emergencies. We provide information when otherwise required by law, such as for law enforcement in specific circumstances. We may also contact you about appointment reminders or treatment alternatives to raise funds. In any other situation, we will ask for your written authorization before using or disclosing any identifiable health information about you. If you choose to sign an authorization to disclose information, you can later revoke that authorization to stop any future uses and disclosures.

We may change our policies in the future. Before we make a significant change in our policies, we will change our notice and post a new notice in the waiting area. You can also request a copy of our notice at any time.

#### **INDIVIDUAL RIGHTS**

In most cases, you have the right to look at or get a copy of health information about you that we use to make decisions about you. You also have the right to receive a list of instances where we have disclosed health information about you for reasons other than treatment, payment, or related administrative purposes. If you believe that information in your record is incorrect, or if important information is missing, you have the right to request that we correct the existing information or add the missing information.

You have the right to request that your health information be communicated to you in a confidential manner such as sending mail to an address other than your home. If this notice was sent to you electronically, you may obtain a paper copy of the notice.

You may request in writing that we not use or disclose your information for treatment, payments, or administrative purposes or to persons involved in your care except when specially authorized by you, when required by law, or in emergency circumstances. We will consider your request but are not legally required to accept it.

#### **COMPLAINTS**

If you are concerned that we have violated your privacy rights, or you disagree with a decision we made about access to your records, you may contact the person listed below. You may also send a written complaint to the U.S. Department of Health and Human Services. The person listed below can provide you with the appropriate address upon request. Under no circumstances will you be retaliated against for filing a complaint.

#### **OUR LEGAL DUTY**

We are required by law to protect the privacy of your information, provide this notice about our information practices, and follow the information practices that are described in this notice.

#### CONSENT TO USE/DISCLOSE HEALTH INFORMATION FORM

Although Maize & Blue Rehab is not required by law to obtain a signed consent from you for treatment, payment, or healthcare operation purposes, we encourage you to sign this consent so that you aware of our concern and practices regarding protection of your personal health information.

Please refer to the Notice of Privacy Practices (the "Notice") for details if you wish prior to signing this consent. Please note that Maize & Blue Rehab reserves the right to change the privacy practices described in the Notice.

By signing this consent, you agree that Maize & Blue Rehab may use or disclose your protected health information to carry out treatment, payment, or health care operations.

You have the right to revoke this consent in writing, except to the extent that Maize & Blue Rehab has taken action in reliance on your consent.

#### **ACKNOWLEDGEMENT AND AGREEMENT:**

I consent to Maize & Blue Rehab sending protected health information to the insured in the event that I am receiving treatment but am not though insured under my insurance policy. Such information may include, but not be limited to, explanation of benefits ("EOB") or invoices regarding my treatment. I understand that if I do not want such protected information mailed to the insured, then I will notify Maize & Blue Rehab of my objection and will complete a Request for Restriction of Use and Disclosure form.

In addition, I understand and accept the risk of unintentional disclosure of my protected health information because the treatment area is an open area where I and other patients are treated simultaneously. I understand that some of my protected health may be inadvertently overheard by other patients and/or therapists. I also agree not to disclose any protected health information that I inadvertently overhear about other patients while I am receiving treatment in the open treatment area.
